## Collection Overview

**Extent:** 78 boxes (97.4 cubic feet)

**Creator:** Baker, Susan P.

### Administrative/Biographical History:

Susan Baker received a B.A. from Cornell University in 1951 and a M.P.H. from the Johns Hopkins University School of Hygiene and Public Health in 1968. Starting as a research associate in the School of Hygiene and Public Health, Baker rose steadily through the academic ranks, becoming Assistant Professor of Public Health Administration in 1971 and Associate Professor of Health Science Administration with a joint appointment in environmental health services in 1975. She was promoted to Professor of Health Policy and Management in 1983. Baker's influential studies on the epidemiology of injury led to a major health policy focus on the prevention of injury. Her studies include the evaluation of motor vehicle crashes, occupational injuries, drownings, burns, poisoning, back injuries, firearm injuries and aviation safety. Baker has served on many boards and committees including the Armed Forces Epidemiological Board, the National Academy of Science Committee on Trauma Research and as president of the Association for the Advancement of Automotive Medicine. Recipient of numerous awards and commendations, Baker was awarded the Frank A. Calderone Prize in Public Health from Columbia University in 2010.

**Chronology:** 1968- - Johns Hopkins University Bloomberg School of Public Health

### Scope and Content:

The Susan P. Baker Collection consists of Baker's teaching and course files, correspondence, committee files, research materials, awards, and publication files relating to her work as a faculty member at the Johns Hopkins University School of Public Health with joint appointments in the Departments of Health Policy and Management and Environmental Health Sciences. The collection documents Baker's pioneering and leadership role over several decades in the field of injury control. It includes records pertaining to the development of a comprehensive injury prevention program at the School of Public Health at Johns Hopkins University, including the Center for Injury

Research and Policy. These papers document the key persons, issues, and organizations involved in early efforts to advance awareness of injury prevention and effect policy change . There is an extensive set of grey literature as well as correspondence, meeting minutes, manuscripts, and news clippings from Baker's research on the epidemiology of injury and her participation on advisory panels, committees, and her consultancies. These materials cover nearly every conceivable kind of accidental injury and death and are particularly strong in the areas of airplane safety, motor vehicle safety, military safety, and consumer product safety issues. The collection documents some of Baker's significant research projects. There are files pertaining to the Injury Severity Score and The Injury Fact Book, among others. There are also many news clippings about Baker and a set of her reprints.

**Creator:** Baker, Susan P.

**Scope and Content:** These materials were used for researching and writing The Injury Fact Book. Documents comprise primarily data in various forms including charts, graphs, maps, census data publications, computer printouts, and tables for the book's many figures and appendices. There are many copies from published vital statistics, includes data on injury mortality tables and injury mortality time trends from the National Center for Health Statistics. There are data on various types of injuries and deaths from various causes, as well as demographics on race, age, and sex. There are also copies of journal articles, including copies of the MMWR, Morbidity and Mortality Weekly Report-on the topics of suicide and homicide. There are correspondence with study colleagues regarding research data, data analysis, and illustrations as well as correspondence regarding book drafts, editing, and publication. There are notes, a draft of the references, and federal agency reports.

**Box 007: Pilots and Airplane Crash Study Files & Crib and Playpen Safety Files - undated; 1982; circa, 1986-1989; 1979**

**Creator:** Baker, Susan P.

**Scope and Content:** Pilots and Airplane Crash Files (bulk of files in this box) contain materials pertaining to Baker's research study, "Fatigue, Pilot Deviation, and Time of Day," 1988-1989. Most materials pertain to data and data analysis and include correspondence, descriptions of data analyses on the Aviation Safety Reporting System (ASRS) data, tables (notes and printouts-many are titled, "Jean's Tables"), maps, bar charts, and other graphs on airplane accidents, pilot deviations, and weekly operations. Some materials are from the National Transportation Safety Board (NTSB). Includes the FAA's (Federal Aviation Administration) "Selected Statistics Concerning Reported Pilot Deviations (1985-1986)." There are also documents pertaining to coding (National Aeronautics Space Administration, NASA, ASRS Report Coding key). There are two reports: a NASA Contract report: "Probability Distributions of Altitude Deviation," 1982; and the FAA's: "Report of the Pilot Deviation Task Group," 1987. There is a research proposal by Baker submitted to NASA, as well as correspondence about the study proposal. There is also a research study summary and there are notes by Baker. Documents include loose papers, two bound volumes, two large binders. Loose documents have been put in folders without titles. Dates: 1982; 1986-1989; undated (bulk).  
Crib and Playpen Injury files consist of two computer printouts of accident/injury reports, one labeled Cribs and the other Playpens. Both printouts are titled: "In-Depth Investigations from Computerized Files, 1977 to present. U. S. Consumer Product Safety Commission – Hazard Identification and Analysis, National Injury Information Clearinghouse," 1979.

include: backaches; bandsaw injuries; cancer; ergonomics; exertion; falling objects; handling materials; harbor accidents; illness; industrial safety; farm injuries; methods of recording and reporting workplace injuries; mining explosions; occupational accidents; occupational deaths; occupational hazards; occupational health; occupational homicides; occupational injuries; occupational safety; machinery operation safety; military & commercial aircraft; nursing work-related injuries; radiation exposure among nuclear workers; scaffold accidents; seafarer's health; state hospital workers' safety; truck driver mortality; tripping; workplace eye trauma; and window cleaning hazards, 1970-1982.

Occupational Injury Materials include: annotated bibliography; annual death and injury surveys; bulletins and newsletters; circulars; conference & symposium programs, including for conferences at which Baker was a speaker (Second International Conference on Injuries in the Workplace, Copenhagen, Denmark, 1986); congressional testimony (transcripts); and correspondence, including regarding presentations by Baker as a guest speaker in courses and elsewhere and requests and responses to requests by Baker for information. There are also course materials for courses taught at JHU and elsewhere (JHU—Occupational Health, 1974, 1979; JHU Occupational Injuries class, 1980); data (mostly statistical) in the form of lists, government occupational safety and health statistics (tables), and other tables. There are guides & manuals (including safety guides and standards); journals (Occupational Health & Safety); journal articles (not authored by Baker); notes by Baker; occupational safety program materials; pamphlets; papers (not by Baker); photocopies of newspaper articles (not authored by Baker); and reports. Occupational Injury files include materials from, among other sources: State Workmen's Compensation Commissions; the UAW; U. S. Department of Health and Human Services (including NIOSH, National Institute for Occupational Safety and health); U. S. Department of Labor (including OSHA—Occupational Safety and Health Administration). Materials on Falls in the Elderly pertain to a research study by Baker and her colleagues on falls in elderly nursing home patients. This study led to a publication: AH Myers, SP Baker, EG Robinson, H. Abbey, ET Doll, and S. Levenson "Falls in the Institutionalized Elderly." Journal of Long-Term Care Administration, 1989. Documents include correspondence, statistical data (from, among other sources, the HSCRC—The Maryland Health Services Cost Review Commission), analyses of statistics by colleagues, coding documents, and manuscript drafts. There are also journal articles and notes, 1982-1990.; Includes Correspondence by Dr. Anna Baetjer.

**Box 010: Aviation & Age (Age 60 Rule); Aspen Airport Safety; Back Injury; & NMFS-IIHS (Drinking & Driving) Files - circa 1981-2002**

**Creator:** Baker, Susan P.

**Extent:** 1 box

**Scope and Content:** Aviation and Age files pertain mostly to the "Age 60 Rule," a federal aviation regulation that prohibits air carriers from hiring pilots that are 60 years old or older. Materials include annotated bibliography, correspondence, including to senators in support of a bill extending the age limit for pilots; copies of court case & congressional documents; journal articles (not authored by Baker); position papers (not authored by Baker); power point slide printouts (presentations by other speakers), study reports (not authored by Baker), including the FAA's "The Age 60 Study,"; technical reports (not authored by Baker); and web content printouts. Files include materials from, among other sources The FAA (Federal Aviation Administration). Files include a paper draft co-authored by Baker, "Commentary: The Age 60 Rule as Protection Against Pilot Medical Incapacitation: Is it Still Valid?" Dates: 1981; circa 1988-2006, inclusive  
Aspen Airport Safety files pertain to Aspen Airport safety, principally regarding opening the Aspen airport to nighttime flights. Materials include copies of charts pertaining to airport accident rates, copies of the code of federal regulations, copies of journal and newspaper

articles, FAA circulars, correspondence, notes, study proposals, Aspen airport safety reports, Aviation safety studies (not authored by Baker), and Web content printouts. Documents include a study proposal by Baker, "To Develop a System for Monitoring the Effect of Changes in Access to Aspen Airport," 1994. Dates: circa 1989-1994; 2001 Back Injury files contain materials pertaining to the Low Back Injury Study conducted by a team, including Baker, from the Johns Hopkins University School of Public Health Injury Prevention Center. Documents include a research proposal; data (charts, graphs, and tables); peer review paper feedback; completed survey forms; blank questionnaires; correspondence; notes; meeting materials; and back injury rates. Dates: circa 1987-1991, inclusive

NMFS (National Mortality Followback Survey)-IIHS (Insurance Institute for Highway Safety) files: The NMFS was begun by the National Center for Health Statistics and contains surveys for supplementing information from death certificates with information about characteristics of the decedents. Materials include descriptions of the NMFS products; charts, graphs, and tables; literature from websites and journal articles (not authored by Baker); correspondence; notes; and a proposal by Baker pertaining to a research study, "Evidence of Problem Drinking in Fatally Injured Drivers: An Analysis of Drivers in the 1993 National Mortality Followback Survey." Many materials pertain to drinking and drinking and driving. Dates: circa 1988-2002, inclusive

**Box 011: BTS Safety Data Action Plan Study & New Injury Severity Score (NISS) Files - circa 2000-2010**

**Creator:** Baker, Susan P.

**Extent:** 1 box

**Scope and Content:** Materials pertain to the Safety Data Action Plan Study of the U. S. Department of Transportation's Bureau of Transportation Statistics (BTS). The objective of the Study was to study and improve data for all modes of transportation. Baker was asked to head a working group that addressed many of the issues and is the principal investigator on the final report generated by the Center for Injury Research and Policy of the Johns Hopkins University School of Hygiene and Public Health. Materials include budgets; charts; committee and workgroup documents, including meeting materials and rosters; correspondence; descriptions of the project; forms; notes; papers; project plan drafts; proposals; study reports; and transportation safety statistics. Dates: 1996; circa 2000-2002 (bulk)

Also includes materials pertaining to a project to have the NISS (New Injury Severity Score) replace the ISS (Injury Severity Score) in the trauma registry and major data bases. Materials include: correspondence; copies of journal articles; and the AIS (Abbreviated Injury Scale). Dates: 1976; 1980; 1990; 2006-2010 (bulk)

### **Box 013: Truck Safety Files - 1966-1981**

**Creator:** Baker, Susan P.

**Extent:** 1 box

**Scope and Content:** Materials pertain to truck safety issues. Documents include three papers by Baker that she presented at annual meetings and conferences; copies of statements of testimonies by Baker and others before the U. S. Senate Committee on Commerce, Science, and Transportation Hearings on Truck-Car Crash Safety; rosters for meetings on Heavy Duty Truck Safety at which Baker was a speaker; notes; materials pertaining to the Truck and Bus Safety Subcommittee of the U. S. Department of Transportation, mostly concerning issues having to do with FMVSS-121 air brake systems; correspondence (many are neither to nor from Baker); news releases; copies of papers not by Baker; reports; clippings, mostly from newspapers; and a large literature of published materials pertaining to trucks, truck accidents, and truck safety by, among others, the U. S. Department of Transportation, the National Transportation Safety Board, PROD, and the University of Michigan Highway Safety Research Institute. Materials include photographic prints.

**Creator:** Baker, Susan P.

**Extent:** 1 box

**Scope and Content:** Includes 22 video cassettes (21 VHS & 1 U-Matic). Videos are about aviation, bicycle safety, ER, engineering design, escalator injury, fires, injury prevention, truck safety, and vehicle safety, among others. Includes one untitled video cassette (U-Matic). Dates: 1988-1989; 1992-1995; 1997; 2002; undated.

Includes 46 CDs. CDs include the following types of materials: bibliography; guides & resources (including JHU SPH Student Resources); personal and travel photographs; papers; power point slides from lectures, annual meetings, conferences, and other talks; proceedings; reports; software; statistical data files; & videos. Authors and presenters for power point slides include Susan Baker, Tim Baker, Robert Dodd, and Jake Pauls, among others. Subjects include aviation; building safety; injury prevention; medical issues (disease, hospitals, and trauma surgery); occupational safety; vehicle safety (age of driver, alcohol, ambulance safety, infant seats, safety belts, etc.); and steamboats. Dates: 1979; 1998-2007; 2010; undated

Contains 37 floppy discs, many with incomplete titles. Titles include: Compaq Y2K; Rose 02; ASMA-Baker-Haddon, Bob Dodd; Johns Hopkins Data Extract from Chrysler Corp. Newark Assy. **Box 020: Aviation Files, Alcohol Research Study Files, & Alcohol Files - 1971; 1980-2001; 2003; 1974; undated; 1977**

**Creator:** Baker, Susan P.

**Extent:** 1 box

**Scope and Content:** Aviation Files, folders #1-11, include a journal article, reports (FAA, GAO, and NTSB) & a reprint. Topics include, among others, airplane accidents & air traffic control. Alcohol Study files, folders # 12-25, pertain to Baker's research studies on alcohol. Documents reference "Alcohol Intoxication in the Severely Injured Patient," "Shock Trauma Blood Alcohol Study" and an article titled, "Alcohol Intoxication and Serum Osmolality," co-authored by Baker. The Medical Examiner's Office and the Maryland Institute for Emergency Medicine (MIEM) collaborated on a study of injury patients admitted to MIEM during 1974-1975 in order to study the relationships between severity of injury, blood alcohol concentration, and survival, as well as the relationship between the rate of metabolism of alcohol and clinical evidence of shock. Materials include coding system (for Shock Trauma Blood Alcohol Study); correspondence; data (graphs, lists of names and blood alcohol levels from the Shock Trauma and Blood Alcohol Study, tables--a master list of tables for the MIEM study, a table of variables, MIEM mortality data, and tables from the Department of Post Mortem Examiners); injury/accident reports (many automobile accidents); journal articles [copies]; a medical examiner investigation report & autopsy report; MIEM admission forms; notes; outline of results section draft; papers; patient records; questionnaire; reprints; and published reports. Materials include the following papers by Baker: "Alcohol Intoxication in the Severely Injured Patient" & "Approaches to the Categorization of Trauma Patients" [1st page only]. Also includes galley proofs of Baker's co-authored article, "Alcohol Intoxication and Serum Osmolality," 1975. Dates: 1961; 1974-1978; 1980-1982; 1991; undated (bulk) Alcohol files, folders #26-51, include a variety of primarily published materials. Documents include: an AAAM position statement; advertisements; correspondence; course materials (Course title: Alcohol and Health, instructors: Li & Baker); journal & magazine articles; journals; lists of abstracts (Alcoholic Beverage Medical Research Foundation); a newsletter (Injury Prevention Network); published research studies (GM); symposium proceedings; and reports (NHTSA). Topics are wide ranging and include, among others, accidental drowning; alcohol & health; alcohol and aggression; alcohol and injuries (at home, play, and at work); alcohol and motor vehicle accidents; alcohol and trauma; drinking and driving, and prevention; alcohol and motorcycle accidents; alcohol use and interpersonal violence; drinking patterns of Native Americans; drugs; house fires; impact on motor vehicle accidents of raising the legal minimum age; and pedestrian deaths. Dates: 1974; 1977; 1982-1995; 1997-2001; 2003; undated

**Creator:** Baker, Susan P.

**Scope and Content:** Aviation Files, folders # 1-15, pertain to the Age 60 Rule, a federal aviation regulation that prohibits air carriers from hiring pilots that are 60 years old or older. Materials include Age 60 Rule chronology; commentary; correspondence; data (tables—printouts); Age 60 Rule internet resource-list of websites; articles & reprints (from journals and magazines); legislation (copies); FAA Age 60 Rule Study Panel of Experts meeting materials and presentation slide printouts; newspaper articles (copies); notes; papers; survey question responses; press release; reports; safety recommendations (NTSB); and web page printouts. Includes one transparency for overhead projector.

Baker was a member of the Age 60 Rule Study project's panel of experts & a panel meeting attendee. Includes a paper co-authored by Baker: "Commentary: The Age 60 Rule as Protection Against Pilot Medical Incapacitation: Is It Still Valid? Dates of Aviation files: 1959; 1961; 1969; 1970-1972; 1974; 1978; 1980-1983; 1985; 1989-1994; 1997; 1999-2000; undated

Asphyxiation Files, folders #16-39, include: accident reports; an annotated bibliography; book chapters; FDA bulletin; AAP conference materials and AAP Task Force on Food and Choking materials; Illustrations (table and figure); journal articles; newspaper articles; notes; pamphlets; paper drafts; papers; press releases & news broadcast (typescript); and a student class paper.

Materials authored by Baker include articles, a paper draft, and a prepublication: "A National Review of Food Asphyxiation Mortality in Children, 1979-1981" (prepublication), 1983; "Childhood Asphyxiation by Choking or Suffocation" (JAMA), 1980; "Childhood Injuries: The Community Approach to Prevention (Journal of Public Health Policy), 1981; "Food Asphyxiation in Children" (paper draft).

Includes materials for the American Academy of Pediatrics (AAP) conference and Task Force on Food and Choking in Children (Baker was a member of the Task Force), 1983. Dates of Asphyxiation files: 1844; 1854; 1902; 1905; 1926; 1936; 1971-1978; 1980-1984; 1991; 1993; 1995; 1999; undated. Materials overlap with Choking Files.

Choking Files, folders #40-54, include: the AAP Task Force on Food and Choking materials; correspondence; journal and magazine articles; notes; pamphlets; papers; & reports.

Includes Food and Choking in Children, the AAP report to the FDA, created by the AAP Task Force on Food and Choking (Baker, et. al.), 1983. Also includes a paper draft by Baker, "Childhood Asphyxiation by Food: A National Analysis and Overview, and a table by Baker: "Adult Asphyxiation on Food, Deaths in Baltimore City, 1970 thru June '76." Dates of choking files: 1965; 1972-1973; 1975-1978; 1982-1984; 1986-1988; 1993; undated.

**Box 024: Australia Files, New Zealand Files, & Bicycle Safety Files - 1990-2000; circa 1970-2000**

**Creator:** Baker, Susan P.

**Extent:** 1 box

**Scope and Content:** Australia Files include three newsletters: the Australian Injury Prevention Bulletin of the Australian Institute of Health and Welfare (AIHW)-- one issue about injury mortality, 1998; Injury Issues Monitor -- pertains to injuries of all sorts, two issues, 1998 & 2000; and Hazard from the Victorian Injury Surveillance System (V.I.S.S.) -- these pertain to a wide range of issues concerning injury including, among others, the VISS database, recreational injuries to older children, home design, and road traffic fatalities, 9 issues, 1997-2000.  
New Zealand Files include the Annual Report of the University of Otago's Injury Prevention

Research Unit (IPRU), 1998, which addresses a wide variety of subjects pertaining to injuries and injury prevention.

Bicycle Safety Files materials include research documents pertaining to the following studies by Baker: (1) "Sequelae of Head Injury in Young Bicyclists," 1995 (a proposal, tables with data, report, budget, correspondence with Snell Memorial Foundation personnel, survey form, and consent forms); (2) "Preventing head Injury in Adult Bicyclists," 1997 (a paper); (3) "Bicyclist Injuries" (proposal submitted to Snell Memorial Foundation), 1991.

The bulk of the bicycle safety materials in this box comprise numerous articles and reprints in journals and trade journals about bicycle injuries and bicycle safety, many with an emphasis on bicycle helmets and children. Topics include patterns of bicycle ownership; national trends in bicycle accidents; bicycle related injuries and disability; the effectiveness of bicycle helmets in preventing serious injury; comparisons of bicycle injuries in adults versus children; bicycle-associated head injuries and deaths in the U. S. (for adults and for children); bicycle helmet use by children; bicycle helmet laws; bicycle helmet campaigns and promotional programs in the U. S., in various states, and other countries; bicycle safety equipment; bicycle-motor vehicle collisions; cycle deaths, injury, and helmet use in other countries (England, New Zealand, and Australia); bicycle safety helmet legislation in other countries (England and Israel); how alcohol consumption effects helmet use, injury, and costs; attitudes toward helmet ownership and use by children; information sources about bicycle accidents (hospital records & police accident reports); BMX bicycles; and buyer's guides to cycling helmets.

There are also newsletters & bulletins about bicycle safety by the Insurance Institute for Highway Safety (IIHS); the Bicycle Helmet Safety Institute; AAA; NHTSA; American Academy of Pediatrics (AAP); Injury Prevention Newsletter; Maryland Injury Prevention Network; Snell; and the University of North Carolina Highway Safety Research Center. There are also newsletters from agencies in other countries, including Australia. The rest of the bicycle safety files include: fact sheets; bibliography, including printouts of references and abstracts; newspaper articles about bicycle safety and helmet laws; papers (not authored by Baker); correspondence; notes; graphs (no source listed); tables; and Website content printouts from the Children's Safety Network. Dates of the bicycle safety files: circa 1970-1997, inclusive; 1990-1996, bulk.

### **Box 025: Farm Safety Files & Consumer Product Safety Files - 1970-2000; 1955**

**Creator:** Baker, Susan P.

**Extent:** 1 box

**Scope and Content:** Farm Safety Files comprise mostly published materials pertaining to farm injuries and deaths among farm workers and children living on farms. The bulk of materials pertain to farm equipment & vehicle accidents (especially farm tractor injuries); other topics include dairy farming, suicide by farmers, worker's compensation, and the hazardous working conditions of rural women. Some documents pertain to other countries, including India. Materials include articles in journals, factsheets, newsletters, newspaper clippings; and reports (including the First Annual U. S. Farm Accident Report by Arnold B. Skromme, 1986). There are publications by the American Society of Agricultural Engineers; Morbidity and Mortality Weekly Report; the National Coalition for Agricultural Safety and Health; the National Commission on State Workmen's Compensation Laws; the National Committee for Childhood Agricultural Injury Prevention; the UAB Injury Control Research Center; University of Iowa Department of Preventive Medicine and Environmental Health; U. S. Department of Health and Human Services; and V. I. S.S. There are also accident reports; bibliography, a small number of correspondence; news releases by the Farm Industrial Equipment Institute; notes; papers (research studies); and published statistics about farm work fatalities. Dates of Farm Safety Files: 1955; circa 1970-2000, inclusive. Consumer Product Safety Files comprise mostly materials by and about the U. S.

Consumer Product Safety Commission (CPSC). The CPSC was created to protect the public from unreasonable risks of injury or death associated with the use of consumer products. CPSC obtains estimates of product-related injuries nationwide utilizing the National Electronic Injury Surveillance System (NEISS), a national probability sample of hospitals in the U.S. containing hospital patient information for emergency visits involving injuries.

CPSC collection documents include: CPSC Consumer Product Safety Alert (containing warnings about a wide variety of products); CPSC Seasonal Safety Alert (springtime hazards); CPSC death certificate file on medications and drugs (printouts); CPSC pamphlets (on accident investigation, NEISS, and the National Injury Information Clearinghouse); CPSC Memo (each issue is on a variety of topics); Consumer Product Safety Review (on a wide range of topics pertaining to children); CPSC News Releases; a CPSC Publications Listing; CPSC Reports; and a CPSC Chairman testimony before the national Electrical Manufacturers Association. There are also notes by Baker about CPSC materials and a few correspondence between Baker and CPSC personnel, including an invitation to Baker to apply for the Medical Advisory Committee on Asphyxiation Hazards, 1989. NEISS publications include: NEISS Data Highlights (newsletter); The NEISS Sample (Design and Implementation); and NEISS Sample Update Final Report. Other materials include a few clippings from newspapers and magazines (about consumer safety legislation and advertisements for toys and sleeping devices); a few letters; papers (about accidental strangulation of children, pool safety, and warning by the FDA about cordless phone earpiece ringers); and in issue of V. I. S. S. Hazard (on child fall injuries). Dates of Consumer Product Safety Files: 1972-1973; circa 1978; 1980-1997, inclusive; 2000.

**Box 026: Children's Safety Files, Haddon Files, & Lecture Files - 2000-2002; circa 1960-1990**

**Creator:** Baker, Susan P.

**Extent:** 1 box

**Scope and Content:** Children's Safety Files ("Kiddos") pertain to a wide range of child safety concerns including motor vehicle safety; seat belts and car child seat restraints; bicycle injuries; burns; choking and suffocation; cuts; daycare injuries; drowning; falls; head injuries; home injury prevention; injury prevention; injury prevention and public policy; pedestrian injuries; pediatric life support; play accidents; poisoning; road accidents; injury prevention; first aid; and violence. Documents include materials about childhood injury in other countries (Canada & Sweden). Few if any of the documents were authored by Baker. Files contain abstracts; bibliography; correspondence; numerous copies of journal articles; notes; educational materials including leaflets, guides, pamphlets, & booklets (by, among others, the IIHS); letters to the editor; many papers (including research studies) on a variety of topics including the epidemiology of fatal childhood injuries; and newsletters (Childsafe Crier, Physicians for Automotive Safety News, Research Notes-NHTSA, and Department of Transportation--Transport and Road Research Laboratory). There are also newspaper clippings (copies); notes; reports (from the Canadian Institute of Child Health, the National Transportation Safety Board and the U. S. Department of Transportation); and reprints. Includes 1 slide (35mm), of a room. Dates: 1970-1990, inclusive; 1980-1985, bulk.

Lecture Files pertain to talks given by Baker, primarily, and some talks by others. Materials include printed outlines, slides, notes, and the text of talks from presentations by Baker. There are numerous notes. There are outlines of ideas for talks, correspondence about Baker's speaking engagements, and copies of newspaper clippings. Baker draws from her research studies for talk content. Topics of Baker's talks include injury prevention; epidemiology of injuries; drinking and driving injuries; injury in America; costs of injury; injury severity & ISS; injuries in the military; aircraft mishap

prevention; preventing childhood injury through policy change; injuries in children and the elderly; motor vehicle and highway safety; and consumer product safety. Baker gave talks to many different organizations, at conferences, medical resident seminars, guest lectures in courses, guest talks in academic seminars on campuses, remarks at events and campaigns, and at awards ceremonies in honor of her contributions. At least one of the talks was in another country (Israel). Dates: Circa 1967-1990, inclusive; circa 2000-2002; 1975-1985, bulk.

Haddon Files consist of publications and papers by and about William Haddon. Haddon was the director of the National Highway Safety Bureau (1966-1969), appointed by President Johnson. He was the president of the Insurance Institute for Highway Safety (IIHS) starting in 1969. Most documents are authored by Haddon, some are about him and his work. Materials include journal articles; bibliography (of Haddon's publications); biographical sketches and a CV of Haddon; newsletter articles; newspaper articles and editorials; papers presented at conferences and annual meetings; reprints; and statements by Haddon at congressional hearings. Subjects pertain to driving and road safety, motor vehicle design, safety standards, safety tests, and vehicle inspections. There are also articles on skiing. Dates: circa 1960-1981, inclusive.

### **Box 027: Military Safety Files & Mortality Data Files - 1975-1995; 1950; 1971; 1961; undated**

**Creator:** Baker, Susan P.

**Extent:** 1 box

**Scope and Content:** Military Safety Files pertain to Baker's studies of injuries in the military. Materials include correspondence, course materials, data, a fact sheet (U. S. Air Force Fact Sheet—on traffic safety), list of contacts, journal articles, newsletters, newspaper articles, notes by Baker, papers, and reports, as listed below.

Correspondence includes a notification of Baker's nomination to the Armed Forces Epidemiological Board (AFEB), 1994, and a letter regarding military applicants enrolled in the MPH program. Course materials are for a seminar, "Injuries in the Military," taught by Baker for occ medical residents, August 1993. Data include computerized data printouts from data systems and published statistics, including the Metropolitan Life Foundation—Statistical Bulletin (on mortality among U. S. Service Personnel). There are data on procedures for data entry (Aeospace Forensic Data Base); causes of injury for army, navy, and airforce patients & on active duty deaths; and injury and diagnosis data worldwide. There are tables pertaining to distribution of active duty forces by service, rank, sex, and ethnic group; motor vehicle fatalities among army personnel; aircraft-related fatalities in the army; suicide by army personnel; and truck fatalities among army personnel. There are also maps about army aviation accidents. There is a list of military vital and Health statistics contacts.

Journal and trade journal articles (not by Baker) pertain to military injuries: Navy recruiting accidents; tank accident injuries; alcohol-related injuries in the Air Force; military flight safety; training injuries from exercise; methods for tracking and analyzing morbidity and illness among active duty air force aviators; air rescue, among others. Newsletters & Bulletins include Officer's Call (training safety); Safe-T-Tips--monthly safety bulletin; Countermeasure. Newspaper articles (copies) are on the subjects of military pilot illness; changes made by the army to reduce its rate of accidents; sleeping soldier injuries; and helicopter accidents. Papers (studies, presentation papers, & course papers) are about Navy Aircraft Carrier flight deck injuries; bicycle helmet use at military forts; aircraft accidents; the army safety program; ejection survival; seat belt utilization in U. S. Army vehicles; and aircraft bird strikes. Reports include army technical reports about the epidemiology of injuries in the army and other military populations and military injury surveillance and prevention [includes many overhead projector transparencies]. There is also a 1988 Worldwide Survey of Substance Abuse and Health Behaviors among military

personnel. Military file dates: 1971; 1975-1976; 1979-1980; 1982-1995; undated. Mortality Data files are mostly in the form of tables and graphs from computerized data printouts, handwritten graphs and tables, and published statistics. Many tables are divided by race, sex, and age. These data pertain to: accidental poisoning; asphyxiation by food; bicycle accidents; drowning; falls; fire; homicides; infant & childhood mortality from various causes; motorcycle accidents; pedestrian accidents; suffocation; and suicides. Materials include, "Deaths from 281 Selected Causes" (includes cause of death, race, sex, and age). Mortality data files also include correspondence regarding data; notes; an outline: "Alcohol & Injuries – Susan P. Baker;" and a journal article on osteoporosis (not by Baker). Dates: circa 1950; 1961; 1975-1981.

**Box 028: Motorcycle Safety Files, Motor Vehicle Safety (Seatbelt) Files, & Poisoning Files - 1966; 2000; 1995-1996; undated; 2002; 1959-1960; 1968-1993**

**Creator:** Baker, Susan P.

**Extent:** 1 box

**Scope and Content:** Motorcycle Safety Files include journal articles (not by Baker), correspondence, data, newsletters, papers (not by Baker), reports, congressional testimony, newspaper clippings, news releases, and meeting notes as listed below. ; Articles & reprints are on the following topics: moped, minibike, and motorcycle accidents; daytime motorcycle headlight operation & laws; and motorcycle helmet use laws. There is correspondence to and from Baker as president of the American Association of Automotive Medicine, AAAM, along with editorials, objecting to or supporting Baker's published comments about motorcycle safety, 1975-1978. There are also materials from the Canadian Department of Transportation about mopeds in Canada. There are correspondence about moped statistics in Europe; correspondence with Gerry Brewster (member of MD House of Delegates) concerning Maryland motorcycle helmet laws; and other general correspondence. Data (tables – notes and computer printouts) are by the Maryland Institute for Emergency Medical Service Systems & the Kansas Department of Transportation concerning motorcycle helmet studies. There are also data on motorcycle accidents by state.

; Newsletters include: NHTSA's National Traffic Safety Newsletter & Traffic Tech as well as Injury Prevention Network. Papers concern motorcycle safety helmet use and moped safety. There are reports by the National Highway Traffic Safety Administration (NHTSA); the National Motor Vehicle Safety Advisory Council; the National Safety Council on Motorcycle Facts; the Motorcycle Safety Foundation; and the Texas Department of Public Safety. Materials include testimony, (statements by Baker) on behalf of MedChi, before Congress regarding motorcycle helmet use laws, 1980-1981. Baker was a consultant to MedChi's Transportation Safety Committee from 1974 until 1985. Other documents include legislation (website printout) regarding Maryland State mandatory motorcycle helmet law, 2010; newspaper clippings (photocopies) and news releases about mopeds; and the Conference Proceedings from the Twenty-First Stapp Car Crash Conference hosted by the Naval Aerospace Medical Research Laboratory, 1977.

; Motor vehicle safety (seatbelt) files include journal articles, monographs, newsletters, newspaper articles (copies), papers, and reports as listed below. These materials were not authored by Baker. ; Monographs, journal articles, and papers pertain to seat belts: seat belt use in the U. S.; mandatory seatbelt laws; incentives and strategies to increase safety belt use; improper use of seat belts; rear seat occupants; automatic shoulder belts; child restraint misuse; non-use of seatbelts by intoxicated drivers; and the effect of safety belts on morbidity and health care costs. There are newsletters by the NHTSA, the University of North Carolina Highway Safety Research Center's Highway Safety Highlights, and The UMTRI Research Review. There are Newspaper articles (copies) about air bags; seat belt law enforcement and freedoms; public attitudes toward mandatory belt use; and making sure seat belts fit properly. There are Reports by the

National Highway Traffic Safety Administration; the University of Michigan Transportation Research Institute (UMTRI); and GM. Other materials include correspondence (not by Baker); seat belt usage survey data (tables)-surveys conducted by the Maryland Association, Women's Highway Safety Leaders; Senate of Maryland bills on mandatory seat belt laws, 1985 and incentives for promoting seat belt use, 1983; Baker's notes about Mandatory seat belt laws in various states; and pamphlets and booklets by the NHTSA and Virginia polytechnic Institute.

; Poisoning files include articles from journals, bibliography, correspondence, data in the form of tables and graphs, newsletters, papers, and reports as listed below. With the exception of correspondence, the bulk of these materials were not authored by Baker. ; Journal and magazines articles are on a range of poison-relat

**Box 029: Motor Vehicle Safety (Speed) Files - 1996; 1985-1990; 1968-1970; 1992-1993; 1972; undated; 1974-1983; 1998; 2002**

**Creator:** Baker, Susan P.

**Extent:** 1 box

**Scope and Content:** Motor Vehicle Safety (Speed) Files include journal articles, data, news clippings and releases, papers and many reports, as listed below. Materials include articles and reprints on the following topics: effects of the 65mph speed limit on rural highway fatalities, (a state-by-state analysis); ways to deter speeding; benefits and costs of the 55mph limit; hazard caused by speed. There are clippings from newspapers (mostly) and trade magazines (copies) on related topics: highway speed limit debates (include editorials for and against the national 55mph speed limit); speed and safety/danger in the U. S. and other countries; speeding trucks; adds promoting speed; tailgating; speed bump speeds; high-speed police chases; speed limit legislation; speed crash tests; traffic radar detectors; and the increase in muscle cars and speeding. There are news releases and news statements on the pros and cons of the 55 mph versus 65 mph speed limit. There are U. S. Department of Transportation releases on 55mph speed enforcement and truck fuel consumption as well as IIHS releases on speed limits and law breaking; radar detectors; and issues involved in increasing the speed limit to 65mph (with a focus on rural interstates). Materials include papers about the safety of the 55mph speed limit; the impact of the increased 65mph limit on the safety of rural interstate highways; and Insurance Institute for Highway Safety (IIHS) studies on mortality consequences of raising the speed limit to 65mph, 1988. There are many reports: Highway & Vehicle Safety Report; IIHS Status Report; GM Research Publications; Freeman Fox and Associates study; Department of the Environment's Transport and Road Research Laboratory Digest Report; University of North Carolina Highway Safety Research Center (HSRC) synopsis; Colorado Medical Society Committee on Automotive and Aviation Safety report; Texas Transportation Institute report; American Association of State Highway & Transportation Officials' report; Office of Research and Development Bureau of Public Roads' interim report; U. S. Department of Transportation's 55mph statement of compliance status report; Federal Highway Administration's report on accidents on rural highways; Office of Research and Development Bureau of Public roads interstate system accident research study report; and reports by NHTSA. There are correspondence pertaining to a joint research project on speed (55mph vs 70mph) that could be used for advocating for legislation and for educational presentations to kids, undated; correspondence with an AAAM member about speed control devices, 1979; and correspondence with the NHTSA about the double-nickel challenge, 1978. There are data gathered from various states and compiled by the National Highway Traffic Safety Administration (NHTSA) and the Federal Highway Administration regarding speed, fatalities, and arrests (includes data tables); speed and accidents by states & vehicle types; and the NHTSA's 55mph Fact Book, 1979. Other materials include notes (tables &

text); Transportation Research Abstracts; and fact sheets.

**Box 030: Sports Injury Files & Taiwan Files** - undated; 1973-1979; 1970; 1981-1986; 1988-1994

**Creator:** Baker, Susan P.

**Extent:** 1 box

**Scope and Content:** Sports Injury Files include copies of articles from journals and magazines, clippings from newspapers; correspondence; data; and newsletters as listed below. Articles from journals and magazines are on numerous sports injury related topics: cervical cord injuries in sports; high school athletics girls sports injuries; the impact of pitching on the arm and elbow; Little League eye guards; recreational softball injuries; the high rate of football injuries; causes of football knee injuries; head and neck football injuries; football helmets; college football injuries from increased aggression in the sport; hang gliding injuries & fatalities; injuries in high school sports; the need for an improved hockey helmet; horse riding accidents; parachuting injuries; racquet eye injuries & the need for ocular protection; rodeo injuries; roller skating wrist injuries; rugby injuries; ski trail safety; skiing injuries; ski jumping safety; youth soccer injuries; sports related brain damage injuries; survey of sports related spinal cord injuries in schools and colleges; and sports helmets. There are clippings from newspapers on similar topics: boxing head injuries; bullfighting injuries; cheerleading accidents; violence on the football playing field; high school football injuries; the need for neck injury protection for professional football players; women's lacrosse injuries and the need for helmets; martial arts injuries (kendo, judo); running and hiking feet and leg injuries; skateboard accidents and injuries; skiing accidents & injuries; violence in professional sports; school trampoline injuries; and women's wrestling. There are also newsletters & company publications on sports injuries. Papers include a presentation on elbow injuries in girls' gymnastics; sports epidemiology; and a student paper on injury control in sports.; Sports injury data (graphs, outlines, tables) include presentation printouts displaying data from U. S. Airforce databases for a study on sports and recreation injuries among military personnel; U. S. Consumer Product Safety Commission (CPSC) tables of football, softball, & hockey injuries and related equipment; tables of data from hospitals; a childhood injury data system coding manual; and notes on the Maryland census data. There are also correspondence concerning a Baltimore public school system youth incentives program to maintain health aspects of secondary school sports, 1979 (Baker is mentioned); a memo about the Hopkins Cooley fitness Center, 1982; and other general correspondence, 1990. Dates of sports injury documents: 1970; 1973-1979; 1981-1986; 1988-1994; undated. ; Taiwan Files comprise materials by Baker and colleagues pertaining primarily to her serving as a consultant to SHIP, a multi-national spine and head injury research project, in Taiwan, 1992-1994. There is correspondence by Baker seeking funding for a study of head injuries to motorcyclists and bicyclists in Taiwan and China, and correspondence about the May 1994 conference. Materials include an abstract by Baker, "Strategies for Preventing Road Traffic Injuries and Deaths" [in Taiwan] and a research proposal by Baker titled "Head Injury and Helmet Use in Taiwanese Motorcyclists and bicyclists. There is a description of the SHIP project titled, "Global Spine and Head Injury Prevention (SHIP) Project" that includes research forms. There are correspondence thanking Baker for her feedback on a paper on traffic injuries in Taiwan, as well as a published article. There are data printouts--Taipei city head injuries 1991, and graphs and tables pertaining to head injury, spinal cord injury, deaths, motorcycle helmets and motor vehicle injury incidents in Taipei. There are papers and abstracts of studies and a symposium on head and spinal cord injury in Taiwan. There are also two bound publications: Public Health in Taiwan Area, Republic of China, 1993 and Health and Vital Statistics, [for Taiwan] 1992 (in English and Mandarin Chinese). Dates: 1991-1994

**Box 031: Statistics Files - c.1837; 1964; 1967-1972; 1974-1986; 1988-1989; 1991-1993; undated.**

**Creator:** Baker, Susan P.

**Extent:** 1 box

**Scope and Content:** Materials include primarily graphs, tables, news clippings, newsletters, and reports, as listed below.  
Tables & graphs (printouts, hand written, & published) are on many topics: standardized death rates by race & sex, 1950-2010, along with correspondence from the Census Bureau asking for Baker's views on future mortality trends, 1989; death rates for accidents by cause, age, race, and sex, from the U. S. Department of Health Education and Welfare; deaths from each cause by 5-year age groups, race, and sex, 1976; death rate per 100,000 for homicide by race, sex, and age in Maryland, 1940-1982; mortality rates from leading causes by age and race for Baltimore, 1967; mortality from accidents among women; number of single-listed diagnoses for inpatients discharged from short-stay nonfederal hospitals, by ICD-9-CM code, sex, age, and race of patient and geographic region of hospital, U. S. There are also statistics on poisoning; truck accident fatalities; NCHS estimates of injuries from motor vehicle crashes; lung cancer deaths; driver blood alcohol levels; deaths from nontransport accidents by location, race, and sex; and traffic accidents in Baltimore, 1970.  
Other materials include a journal article on mortality trends for leading causes of death in the U. S., 1950-1969; Accident Facts (newsletter); Traffic Accident Facts (newsletter); National Safety Council Bulletin; an article on the use of medical statistics, c.1837; Correspondence with NCHS on the Health Interview Survey questionnaire, 1969; News Clippings (copies) on the topics of traffic fatality & suicide; newsletters and reports by the National Highway Transportation Safety Administration, National Center for Health Statistics, and Maryland Vital Statistics; and a catalog of publications of the NCHS, 1980.

**Box 032: Student Papers - 1989; 1976-1986; undated**

**Creator:** Baker, Susan P.

**Extent:** 1 box

**Scope and Content:** Materials consist of papers written by students for courses taught by Baker. Papers include evaluative comments and grades. Courses include the Epidemiology of Injuries and Special Studies—Issues in Injury Control. There are also a few other documents including correspondence with students, letters of support and completed recommendation forms by Baker for students, and human volunteers forms for student research projects.

**Box 033: Fatigue Files & Student Papers on Occupational Injury - 1975; 1994; undated; 1990; 1978-1988**

**Creator:** Baker, Susan P.

**Extent:** 1 box

**Scope and Content:** Fatigue Files include articles, bibliography, papers, reports, and congressional hearing testimonies, as listed below. These Materials were not authored by Baker.  
Fatigue related journal articles & book chapters (copies) pertain to the following topics: workload and operational fatigue in helicopter pilots; occupational fatigue and injury; sleep cycles and naval aviation; fatigue and naval aviation accidents; biological rhythmicity and air force flight accidents due to pilot error; regulations of flight duty and rest times, a comparison of different countries; circadian rhythms, fatigue, and effects on performance;

shift work fatigue; chronobiology; disruptions of body rhythm from long-distance air travel; circadian rhythms and fatigue in flight operations; aircrew schedules; & driver fatigue. Papers (book chapter drafts, keynote address drafts, workshop proceedings, etc.) are on the topics of aircrew fatigue and circadian rhythms; boredom, sleepless nights, and vigilance of flight crew; & pilot fatigue.

Bibliography include annotated bibliography on circadian desynchronization, a bibliography on injuries, and a list of publications from the Aeronautical Human Factors Research Office, NASA Ames Research Center, 1987. There are reports of the Association of Professional Sleep Societies (APSS) Committee on Catastrophes, Sleep and Public Policy on the role of human sleep and brain clocks in the occurrence of medical and human error catastrophes. Testimonies and statements before congressional hearings (printouts) on flight attendant fatigue & flight crewmember rest requirements also include copies of correspondence, legislation, journal articles and tables of flight data. Other materials include an Advisory Group for Aerospace Research and Development (AGARD) Sleep and Wakefulness Handbook for Flight Medical Officers (summary section); a few correspondence (not Baker's); and one page of Baker's hand written notes. Fatigue files dates: 1975; 1978; 1981—1988; undated.

Student Papers on Occupational Injury consist of papers and outlines of papers written by students for courses taught by Baker. Papers include evaluative comments and grades. Courses include Epidemiology of Injuries & Special Studies—Issues in Injury Control. Dates: 1979-1985; 1988; 1990; 1994; undated.

**Box 034: Red Cross Files (on Aviation Safety) & Student Papers - 1982-1990; 2010; 1998-1999; undated; 1994-1995; 1992**

**Creator:** Baker, Susan P.

**Extent:** 1 box

**Scope and Content:** Red Cross Files include copies of articles from journals, magazines, and book chapters, a printout of a guest lecture by Baker, newsletters and bulletins, papers, reports, and similar publications, as listed below. Of these materials only the guest lecture is by Baker.

Articles, book chapters, & reprints from books, journals, and magazines are on the following topics: mountain wave turbulence; pilot attitudes regarding cockpit resource management; aircraft accident investigation; flight crew performance breakdown; stress and airplane accidents; pilot and air traffic controller's health; aircraft automation and pilot/machine interface; & the science of flying. Papers are on the following topics: windstorms; aircraft accidents in the Aspen area; weather briefing use and fatal airplane accidents; aviation errors and weather; & aviation safety rulemaking and politics.

Newsletters & bulletins include The Aviation Consumer, 1985 Pilot's Yearbook & NASA's Callback, 1987. Reports, guides, safety studies, and technical papers are by the FAA, Federal Highway Administrations, NASA, the NTSB, and the U. S. Army Safety Center, as well as, "ASMIS Retrieval and Processing System (ARPS)" & U. S. Congressional Budget Office Special Study: "The Status of the Airport and Airway Trust Fund." There is also a guest lecture (copy of a printout) by Baker, Lamb, and Tranter on "Statistics on Aviation Crashes", 1988. Dates of Red Cross files: circa 1982-1990; undated.

Student Papers consist of project outlines, term papers, and course final examination papers for the following courses: Issues in Injury Control; Epidemiology of Injuries; Public Health and the Law; and Policy, Politics and Transportation Safety. Papers include evaluative comments and grades. There is also a course evaluation summary for the Epidemiology of Injuries course for the 3rd quarter of the 1981-1982 academic year. Dates: 1982; 1985-1986; 1990; 1992; 1994-1995; 1998-1999; 2010.

**Box 035: Student Dissertations & Teaching Files - 1989; 1981; 2008; 1996; undated; 2003-2005; 1991**

**Creator:** Baker, Susan P.

**Extent:** 1 box

**Scope and Content:** Materials include seven dissertations by Baker's students. Dissertations are by: Nagesh Narayan Borse; Carolyn Jane Fowler (nee Cumpsty); Diane L. Frankenfield; Margaret F. Haynes; Michael Chi-Chang Ho; Elizabeth Ann Gerken Hooten; & Robert L. Kay, Jr. There is also a binder titled "Brauer Appendix" with materials pertaining to firefighter injuries. There are also teaching materials for Baker's course on Issues in Injury Control (304.683) including a binder titled "Issues in Injury Control, 1st Quarter – 1989." Binder materials include a course syllabus, course readings (copies of articles), and a paper by Baker and Haddon titled, "Injury Control," 1981. There is also a bound set of readings (not authored by Baker) titled "Adverse Effects" with copies from journal articles and a book on medical errors.

**Box 037: Student Dissertations; Teaching Files; & the Journal of Safety Research - 1982-1984; 1988; 1969-1980**

**Creator:** Baker, Susan P.

**Extent:** 1 box

**Scope and Content:** Materials include two dissertations by Baker's students: Robert Hildreth McKnight; & Trudy Ann Karlson. There are also teaching materials which comprise one bound publication titled: "EPIC Educating Professionals in Injury Control, Pilot Core Curriculum, September 1988" accompanied by a note, "Baker & Teret helped to develop." The bulk of materials in this box consist of several volumes of the Journal of Safety Research, 1969-1980; 1982-1984.

**Box 038: Injury Fact Book Research Files & Photograph Files - 1979-1986; 1969; undated**

**Creator:** Baker, Susan P.

**Extent:** 1 box

**Scope and Content:** The bulk of these materials are research data on fatal injuries for The Injury Fact Book (by Baker et al.) in the form of computer printout tables, including: NCHS data on death rates by cause, race, sex, age, place (state), per capita income, and urbanization from 1977-1979; CPSC death certificate files on deaths of infants under age two from children's products, 1979-1984; coal accident and injury abstract, 1980-1984; & partially identified tables on deaths from various causes, 1986. Other documents include a news clipping on the topic of hiking gear, 1982; a UNC HSRC report: "Accident Research Manual," 1980; a Conference program for the Child Health Behavior: Behavioral Pediatrics Conference, 1983 (Baker was a conference speaker on the subject of "Behavior and Childhood Injury: The Need to test Our Assumptions"); & a National Highway Safety Bureau publication,

"Analysis of Motor Vehicle Accidents Involving Air Force Personnel, 1969."

There are also ten 8x10 inch undated and unlabeled photographs. Images include: a building stairwell; a floor plug outlet; a laboratory; a metal desk; a desk drawer; the entrance to the School of Public Health building at JHU; the entrance to an unidentified building; two pictures of an office; and a laboratory desk.

**Box 039: The Injury Fact Book Revision Files - 1990-1991; 1978; undated; 1976; 1967; 1983-1992**

**Creator:** Baker, Susan P.

**Extent:** 1 box

**Scope and Content:** These materials were gathered by Baker in the process of revising The Injury Fact Book for a second edition that was published in 1992. They contain data on aviation crashes; tables and figures on a wide variety of injury and death related information; occupational injury files; & sports injury files.  
There are materials pertaining to the Sports Injuries Chapter, organized topically by sport, that include journal articles, papers, and reports (submission to the Maryland Injury Prevention Advisory Committee Contribution to the Subcommittee on Sports and Recreational Injuries Report & MMWR). Dates: 1967; 1976; 1978; 1985-1989

**Folder 039/001 - 039/003: Part 135 -- Airplane Accident Tables, circa 1983-1988 - 1991; 1983; 1987-1988**

**Extent:** 3 folders

**Folder 039/004 - 039/009: Tables -- Airplane Crashes, circa 1983-1988 - 1990-1991**

**Extent:** 6 folders

**Scope and Content:** Materials consist of annotated printouts of tables on airplane crashes sorted by different variables (such as airport, crash category, operator, scheduled and nonscheduled flights, etc.) for the years 1983-1988.

**Folder 039/010 - 039/013: Listings -- Airplane Crashes, circa 1983-1988 - 1991-1992**

**Extent:** 4 folders

**Scope and Content:** This is the same type of information as "Tables." Baker used two different titles for these sets of data.

**Folder 039/014 - 039/017: Figures, circa 1979-1988 - 1990**

**Extent:** 4 folders

**Scope and Content:** Figures are on a wide range of injury-related information, including death rates. Many figures have edits and include graphs, maps, pie charts, tables-several from the Injury Fact Book, & lists of figures ordered by chapter, as well as some correspondence.

**Extent:** 1 bound volume

**Folder 039/019: NAPHP -- Figures - undated**

**Extent:** 1 folder

**Scope and Content:** This is Baker's label. She does not specify what the acronym stands for, it could be the National Association for Public Health Policy(?).

**Folder 039/020: Tables - undated**

**Extent:** 1 folder

**Scope and Content:** Materials include primarily edited lists of tables by book chapter as well as a few tables, including from The Injury Fact Book.

**Folder 039/021 - 039/026: Occupational Injury - 1967; 1976; 1985-1989; 1978**

**Extent:** 6 folders

**Scope and Content:** Materials include journal articles, correspondence, data, bibliography, notes, a chapter draft, and reports as listed below.  
Articles from journals (copies) and papers are on the topics of: homicide while at work; sudden death at work; fatal injuries (including among children); various occupational injuries; occupational accidents involving children; occupational accidents involving equipment; occupational injuries of women; worker's compensation and OSHA's effects on worker's injury; alcohol & drugs and work related injuries; surveillance in Occupational health and safety 1976; 1982-1985; 1987-1990.  
Correspondence with Baker pertain to revision of The Injury Fact Book, 1989-1990; two letters, with staff from the CDC & NIOSH, on collaboration on a paper examining differences among states in occupational injury death rates, 1990.  
Data include annotated copies of graphs and tables, including NTOF (National Traumatic Occupational Fatality) data from the CDC, on the causes & types of occupational injury, illness, & death (ordered by various factors, such as by age, sex, occupation, region, industry, incident type-e.g., motor vehicle incident by year, etc.) for the years 1980-1987.  
There are also annotated bibliography and printouts of search results for injury statistics searches; an annotated draft of chapter 9, "Occupational Injury," 1990; notes; and reports, including CDC's National Traumatic Occupational Fatalities, 1980-1985 (1989), and MMWR, 1985, 1989. Dates: 1976; 1982-1985; 1987-1990; undated.

**Creator:** Baker, Susan P.

**Extent:** 1 box

**Scope and Content:** Many of these materials were used by Baker for revising The Injury Fact Book for a second edition that was published in 1992 (the first edition was published in 1984). Materials authored by Baker are noted below.

Sports Injury Files include journal articles, supplements, and reprints; bibliography; a draft of Chapter 7, "Sports and Recreation" of The Injury Fact Book; papers and symposium paper abstracts; data in the form of tables; guides; a literature review draft (no author); notes by Baker; reports; printouts of research search results, including abstracts; and published statistics (from insurance companies). There is a draft of an article co-authored by Baker: "Causes of Pediatric Eye Injuries" [1990] and a paper co-authored by Baker: "Epidemiology of Childhood Injuries from Sports and recreation." There are 22 folders of Sports Injury Files. Dates: 1975; 1978-1980; 1983-1989; undated.

; Truck Safety Files include technical papers, newsletters, reports, symposia papers, and studies. The collection includes materials by the following organizations: SAE, Insurance Institute for Highway Safety (IIHS); National Highway Safety Administration (NHTSA); Office of Technology Assessment (OTA); University of Michigan Transportation Research Institute (UMTRI); and the Association for the Advancement of Automotive Medicine (AAAM) (Baker was a member from 1970 onward and the AAAM President from 1974-1975). Materials pertain to many aspects of truck safety: large trucks; cars in conflict with larger vehicles; truck use of radar detectors; antilock brakes on trucks; truck crashes and congestion; the safety-related rulemaking activities of the NHTSA; heavy truck accidents; factors affecting truck crashes; defective truck equipment; truck driver age; tractor-trailers' involvement in highway deaths and injuries; accident rates of heavy-duty vehicles; the motor carrier industry; field tests of heavy vehicles; safety studies of interstate motor carriers; use of twin rigs; daytime running lights; the danger to motorists of heavier trucks; truck driver's use of alcohol and drugs; truck defects; truck visibility at night; national truck statistics; safety implications of various truck configurations; & injury minimization for truck and bus drivers. There are also correspondence about the second edition of The Injury Fact Book, 1989; a newspaper clipping on the topic of drug and alcohol use by truckers; a copy of an accident investigation report involving a truck, by the Bureau of Motor Carrier Safety; data in the form of printed tables on deaths in crashes involving trucks; notes by Baker on the topics of, among others, driver age and truck accidents, truck rollover rates by truck types, & speed; & journal articles. There are annotated drafts of chapter 18, "Large Trucks," of The Injury Fact Book, dated 1990, along with drafts of a list of figures and tables for this chapter. There is a copy of a publication by Baker titled, "Alcohol in Fatal Tractor Trailer Crashes," undated. There is a reprint by Baker titled, "Killer Truck Steering Wheels; A Challenge to Designers," 1983. Truck safety file dates: 1972; 1983; 1985-1990 (bulk.); The bulk of the aviation files consist of tables and graphs on aviation crashes, including from The Injury Fact Book and from computer printouts for the years approximately 1989-1992. There are also printouts of aviation accident reports by ASRS and by the National Transportation Safety Board (NTSB), 1990-1992. Other materials include research search results (printouts), including abstracts; Baker's notes; printouts of presentation slides about aviation accidents; copies of newspaper clippings with Baker's notes; and an FAA

Flight Training Handbook and flight instructor materials. There are journal articles, reprints, and papers (copies) on the topics of mountain flying, alcohol and drug use by pilots, and human factors in aviation accidents. There are also published studies, newsletters, and technical papers by th

**Box 041: Aviation Research Files - 1989; 1980-1982; 1993-1994; 1991; undated**

**Creator:** Baker, Susan P.

**Extent:** 1 box

**Scope and Content:** The bulk of these aviation research files consist of data tables (printouts) listing aviation crashes. The first and largest set of documents pertain to crashes during the years 1989-1992, and 1994. These data have been sorted to compare several variables, including anomalies, landing gear events, phase of flight (e.g., takeoff), flight instructor factors, & pilot performance factors. Information gathered by tables include: average number of crashes per month; number of plane engines; pilot death rates; pilot deaths versus injuries; age of pilots; flight time (number of hours) logged by pilot; causes of accident (mechanical failure, weather, airport conditions, bird strikes, stalling, loss of fuel, midair collision, loss of control, gear up landing, airframe icing, suicide, and undetermined); date of incident; whether restraints were required for flight crew; type of flight; instructional status of pilot; student pilots; emergency handling; absence of a flight plan; retractable landing gear per type of plane; and touch and go's. There are also coding lists for sorting variables. Data include National Transportation Safety Board (NTSB) lists of accident cases ("brief of accident") for the years 1983-1985. Other materials include correspondence about data tables; a Flight Training Handbook; notes by Baker; and printouts of slides for talks, dated 1989.

There are also a set of materials titled "Commuter Study," that contains similar data tables on airplane crashes, notes, as well as accident reports for the years 1982-1988. These materials are dated 1991. Baker co-authored a monograph (a report to the FAA) as well as several presentation papers and articles about crashes of commuter aircraft and air taxis. These materials contain correspondence from Margaret Lamb—one of the co-authors of the monograph, 1992, and of one of the articles, 1993, both titled, "Human factors in crashes of commuter airplanes and air taxis." These documents also contain a printout of a list of recommendations to the FAA. Another set of documents, "Repeaters" also contains mostly data tables and NTSB lists of accident briefs for the years 1983-1988. There are a few notes and journal articles (copies) and abstracts about accident proneness. This set of documents is dated 1993-1994. Baker and Lamb published an article titled "Pilots involved in multiple crashes: 'Accident proneness' revisited," 1995.

**Scope and Content:** The bulk of these materials pertain to data on injuries in the military. Many pertain to a research study of "Injuries to Women in the Military (IWM)." This was a study of the Johns Hopkins Center for Injury Research and Policy. Baker was the co-PI and Gordan Smith was the PI (Principle Investigator) on this study. It was funded by a 3-year grant from the Department of Defense Women's Health Initiative. This project encompassed all branches of the military and includes data from the Army, Navy, and Air Force. There are Air Force Data from the Air Force Safety Center (AFSC) as well as data from DIOR. There are also documents listing Baker as a consultant with the AFSC to provide epidemiologic

consultations regarding the mishap surveillance capabilities of the Center's automated databases in an effort to understand the process of acquiring ground mishap data and enhance the usefulness of mishap databases. Baker published many articles and gave several talks as well as course presentations on the occurrence and prevention of military personnel injuries. She was a member of the Armed Forces Epidemiological Board from 1996-2000 and 2003-2007 and was a member of the Board's Working Group on Injury Prevention from 1994-1995.; Data files comprise tables (printouts), charts, and graphs including from TAIHOD (Total Army Injury and Health Outcomes Database) & USAF Social Actions Programs Statistical summaries, 1990, among others. Tables are on the topics of: injury of active duty military personnel; active duty hospitalization rates and costs of hospitalization; rates of injury in the air force by gender, age, and race; military assault; & mortality rates. There are also materials about military data sources, data codes and coding. These materials include printouts of tables, correspondence, hospitalization data, DoD coding guidelines, descriptions of data sources (including the data retrieval system at the Army Safety Center), definitions and coding descriptions for data elements, & copies of publications about military data codes and military regulations. ; There are also journal articles on the topics of: injury and risk factors of injury; gender and injury; women in combat; physical training and exercise-related injuries; disease and non-battle injury incidence across four ground operations in four countries; foot injuries and prevention; airborne operation injuries and casualties; back injuries; navy accidents and injuries, and hospitalization rates; as well as on specialized topics, such as injury among paratroopers. There are correspondence files, in addition to correspondence throughout the box with military personnel and research colleagues about data, databases (TAIHOD, Air Force Safety Center database, DoD hospitalization and personnel database), coding, data analyses, Armed Forces Epidemiological Board meetings, hospitalization file and active duty personnel, and reports. There are also published reports and recommendations pertaining to injuries in the military. Subjects include: AFI (Air Force Instruction); AFSC's databases; the demographic profile of U. S. Army active duty women for the years 1980-1994; risk of injury by occupational specialty within the armed forces; Fort Drum running shoe injury prevention program, 2010; National Safety Council's Assessment of the DoD safety and occupational health management system, 2001; incidence and risk for injury and illness among male and female army basic trainees, (including comparison by gender). ; Other materials include: accident and death reports for the years 1977-1997; bibliography; budgets pertaining to the women in the military study, including correspondence, 1998; notes by Baker; materials on military ranks & insignia; outlines of research for an AFSC study of back injuries in the military for the years 1988-1998; presentation slide printouts on the topic of deaths among USAF Basic Trainees for the years 1948-1994; a National Highway Transportation Safety Administratio

**Extent:** 1 box

**Scope and Content:** The first set of materials, about two-thirds of the box, are military injuries research files. Many documents reference a study titled "Injury to Women in the Military," also referred to as the IWM project. This was a study of the Johns Hopkins Center for Injury Research and Policy. Baker was the co-PI and Gordan Smith was the PI (Principle Investigator) on this study. It was funded by a 3-year grant from the Department of Defense Women's Health Initiative. This project encompassed all branches of the military and includes data from the Army, Navy, and Air Force. These materials include data: tables, lists of variables, accident lists, and reports. There are also lists of codes and coding tables. Data sources include Navy hospitalization & demographic data; Army hospitalization data, for the years 1990-1994; NTOF data (National Traumatic Occupational Fatalities surveillance system, Department of Health and Human Services); & Service Safety Center Data. Data tables are frequently sorted by gender. Topics include, among others: female navy data; accident data; causes of military personnel injury; traumatic occupational fatalities, motor vehicle and air transport deaths for the years 1980-1992; poisoning for the years 1985-1995; and population data for the military by gender for the years 1980-1993. There are also IWM research project data tracking tables. There are articles from journals (copies) and trade journals on the topics of: musculoskeletal injuries in the military; injuries associated with physical training; suicide in the military; training and combat-related illnesses and injuries among female military personnel (as well as compared to their male counterparts). There are also Clippings (copies) of newspaper articles on the topics of navy pilot crash; suicides on the rise in the military; and military personnel safety issues. There are reports and by the U. S. Army Research Institute of Environmental Medicine (ARIEM), among others. Reports are on the subjects of: injuries in the Army; rates of hospitalization of Army personnel for injury and

musculoskeletal conditions by gender and occupation; physical training injuries in army infantry trainees; & an Annual Report on the IWM research project. There are also papers on the following topics: upper-extremity disorders in the federal work force, injuries caused by exercise training programs, & injury incidence in soldiers by age and physical fitness. ; There are correspondence files by correspondent's last name. There are also many correspondence about the IWM project, specifically about the grant proposal and data including, navy data, dmdc (Defense Manpower Data Center) data, SAMS system, NTOF data (National Traumatic Occupational Fatalities surveillance system), outpatient datasource (Ambulatory Data System), and DMSS, Defense Medical Surveillance System. Includes correspondence between Baker, Forney, Gordon, and Smith, as well as Bruce H. Jones, Lieutenant Colonel & Chief of Occupational Medicine Division. Other materials include: abstracts; descriptions of other studies being conducted at the Naval Health Research Center; descriptions of the research activities of the IWM study; Naval Health Research Center physical training program guidelines for Navy recruits; and notes by Baker. There are presentation slides (printouts) on the following topics: injuries in the military (by Baker); Army medical surveillance activity; & sports and recreation injuries of military personnel. There is also a proposal for the IWM study, dated 1996 titled, "Injury to Women in the Military" to produce a monograph or series of papers on injuries to women in the military. Dates: 1987; 1990; 1992-1993; 1995-1999 (bulk); undated. ; The last set of materials (10 folders) in this box were used by Baker for revising The Injury Fact Book for a second edition that was published in 1992 (the first edition was published in 1984). **Box 044: The Injury Fact Book, Second Edition, Research Files - 1977; 1947; undated; 1963; 1981-1991; 1986-1991**

**Creator:** Baker, Susan P.

**Extent:** 1 box

**Scope and Content:** The Second Edition of Baker's book, The Injury Fact Book, was published in 1992 (the first edition was published in 1984). The bulk of these materials comprise articles and reports, as described below. There are also several data tables. The vast majority of these documents are dated after 1984. One exception is the final folder, "Raw Data & Source," these materials are dated 1979-1983.

Articles, reprints, & offprints (copies, microfilm copies) are on the following topics: seat-belts; drinking and driving; child seats; farm injuries; speed limits; head & spinal cord injuries; hip fractures; motor vehicle injuries and deaths; animal bites; injuries to children; occupational injuries & deaths; homicides; suicides; natural disaster injuries; firearms; drowning; boating injuries; pedestrian injuries; lightning related deaths; falls, falls among the elderly, and falls among children; fires and burns; strangulation and asphyxiation; bicycle injuries; bicycle helmets; injuries from fireworks; army aviation accidents; children shooting children; gun laws; & heavy truck accidents. Many of these discuss variables of age, gender, and race. Reports are by the following organizations: Insurance Institute for Highway Safety (IIHS); The University of Michigan, Transportation Research Institute (UMTRI); National Highway Traffic Safety Administration (NHTSA), U. S. General Accounting Office (GAO), University of North Carolina, Highway Safety Research Center (UNC HSRC); American Association of Poison Control Centers; National Center for Health Statistics (NCHS); and the U. S. Bureau of Labor Statistics; among others. Documents include a copy of the Federal Register and MMWR. Topics of reports include speed limits; seat-belts; bicycle helmets; drinking and driving; vehicle size; 1988 traffic fatalities; NHTSA's federal motor vehicle safety enforcement standards, 1986; rail-highway crossing accidents; poisonings; suicide; homicide; firearm injuries and deaths; and burn injuries. Data (tables—printouts, published, and hand written) include death rates by cause, age, gender, and place of residence. There are also population estimates as well as data on motorcycles and mopeds and Native American's injuries. Other documents include correspondence; bibliography; printouts of literature search results, and abstracts; a press release on populations data; & papers on the following topics: drowning; poisoning; occupational injuries; suicide; homicide; and Injury prevention.

**Creator:** Baker, Susan P.

**Extent:** 1 box

**Scope and Content:** This Box contains three sets of files, materials Baker used for revising The Injury Fact Book; Records from the Johns Hopkins Injury Prevention Center during the years that Baker was the Director of the center; and research files pertaining to various injury-related topics.

The materials in the front section of this box are a continuation of The Injury Fact Book , second edition, files in box 44. These materials comprise mostly data tables (printouts and hand written tables), journal articles (copies), and reports on a wide range of topics pertaining to injury and death (i.e., rates of hospitalization, leading causes of unintentional injury; choking; fractures; poisoning; aviation accidents; carbon monoxide poisoning; suffocation by infants; drowning; injury prevention knowledge among low income families; fire and burns; boating; suicide; underwater diving fatalities; farming; and occupational injuries and illnesses, by industry). Tables appear to be sorted by several variables including state, urban versus rural, income, sex, age, diagnosis, and race. Sources of statistics include the National Center for Health Statistics (NCHS), the U. S. Coast Guard, and the U. S. Bureau of Labor Statistics, among others. There are also a few papers and reports by the National Transportation Safety Board (NTSB). Dates: 1969; 1973; 1980-1982; 1985-1990; undated.

The second section of the box comprises records of the Johns Hopkins Injury Prevention Center. Baker was the first Director of the Injury Prevention Center, from 1987-1988, as well as the Co-director of the Center from 1988-1994. These folders include the following types of materials: correspondence and tables pertaining to salaries and raises for faculty in the Department of Health Policy and Management, including Baker; financial summaries & budgets; quarterly budget meeting agendas; research budgets; notes; sabbatical leave reports; and publications lists. There is also an 8.5 x 14 inch blueprint of the Center. Dates: 1987-1988; undated.

The third section of the box has research files on a wide range of topics. Subjects include motor vehicles (ejection; trucks; drinking and driving; foreign drivers; teen drivers); homicides; pedestrians; fires and burns; falls; aviation; the elderly; the Gulf of Mexico; rodeos; freak accidents; and Baker's book, Injury Research: Theories, Methods, and Approaches. Documents include abstracts & literature search results (printouts); accident and death report forms; articles & reprints from journals (copies); correspondence; tables (computer printouts, hand written, and published statistics); graphs; news articles (printed from the internet source); notes; reports; copies of the Federal Register; proposals for studies by Baker; enrollment student lists; papers (studies); & presentation outlines. Dates: 1964; 1967; 1971-1980 (bulk); 1993; 1997-1998; 2000-2011; undated.

**Box 054: ABC Files: A - 1954; circa 1957-2009; undated.**

**Creator:** Baker, Susan P.

**Extent:** 1 box

**Scope and Content:** Subject files in this box are on the following topics: Alaska; traffic accident rates by age and gender; alcohol; Age 60 Aviation Rule; airbags; architectural design for safety; Armenia; Aspen Airport safety; assault; and ATVs-all terrain vehicles. This box contains Baker's personnel activity reports from the Johns Hopkins Departments of Health Services Administration and of Health Policy and Management, as well as her committee records from the Department of Health Policy Management. There are also teaching materials; records pertaining to Baker's involvement in professional societies; and materials pertaining to many research studies and injury prevention projects initiated and carried out by Baker and her colleagues. The ABC files cover every facet of Baker's professional working life, including research; committee work within the Johns Hopkins University School of Public Health; her teaching at Hopkins, as well as external projects to educate professionals about safety issues in their field; and her efforts toward developing the injury control program at Johns Hopkins. Materials document Baker's extensive involvement, as a consultant, advisory panel member, and leader, with professional associations, federal agencies, and scientific organizations committed to injury prevention. They pertain to Baker's presentations at conferences and workshops; her publications; and her receipt of honors and awards. Within each box, Baker has arranged these papers in alphabetical order by topic (organization name, professional activity, or research subject). These files, even within individual folders, include a mix of material types and cover a wide range of professional activities.

**Folder 054/001 - 054/002: American Association for Automotive Medicine (AAAM) - circa 1957-1984; 1993-1994; 2001**

**Extent:** 2 folders

**Scope and Content:** Baker was a member of the AAAM starting in 1970; she served as the AAAM President from 1974-1975; and was awarded a Fellow in 1994. Records include copies of AAAM meeting minutes; biographical sketches and pictures of the board of nominees, including Baker, 1971; an announcement and photograph of Baker as

the first lady president of the AAAM; copies of The President's Letter that includes one by Baker in her capacity as President, 1974; annual meeting programs; reports; organizational history documents; and the AAAM Quarterly News. One issue contains a picture of Baker presenting an award to William Haddon, 1975. There are also correspondence by Baker and others pertaining to mandatory seat belt legislation, 1984; testimony by Petrucelli, with Baker's annotations, before the California Senate Transportation Committee regarding safety belt laws, 1985; and correspondence awarding Baker Fellow Status in the AAAM, 1994. Baker is also pictured in photographs in the AAAM publication, A Brief History.

**Box 060: ABC Files: I-Le - 1830; 1964; circa 1968-2012; undated.**

**Creator:** Baker, Susan P.

**Extent:** 1 box

**Scope and Content:** Box 060 contains files with titles beginning with the letters I-Le. Subject files in this box pertain to the following topics: Iceland; impairment scaling; in-line skating; Indians (Native Americans); the Indian Health Service (U. S. Department of Health and Human Services); infection; injury scaling; injury severity; instruction (flight training); interstate (highway system); Injury Severity Score (ISS); inventions; intelligent vehicle highway systems (IVHS); jokes (humorous materials); kidney disease program; knives; labeling (consumer products); laborers; ladders; landmines; laser brake lights; lead (paint and leaded gasoline); and legislation and legislators.

Files include correspondence with the Insurance Institute for Highway Safety (IIHS) in which Baker discusses her early research and writings on motor vehicle injuries, including noticing a high rate of infant deaths in data on automobile accidents. These correspondence contain many letters between Baker and William Haddon. Baker, Haddon, and others at IIHS correspond about research ideas, data, their papers, presentations, guest lecturers from IIHS speaking in Baker's courses, as well as IIHS's funding of Baker's research. This box of Materials includes correspondence and people files; student files, personnel files; research files; teaching files; publication files pertaining to Baker's book, The Injury Fact Book and its revision; and records pertaining to research funding. There are also files titled, "ideas" and files titled "Injury Information Center," a project of the federal Division of Epidemiology and Control to "develop a system to collect and disseminate information on injury control and research findings."

The ABC files cover every facet of Baker's professional working life, including research; committee work within the Johns Hopkins University School of Public Health; her teaching at Hopkins, as well as external projects to educate professionals about safety issues in their field; and her efforts toward developing the injury control program at Johns Hopkins. **Creator:** Baker, Susan P.

**Extent:** 1 box

**Scope and Content:** The bulk of materials in box 070 comprise reprints by Baker & bound reports (not authored by Baker). There are also publications featuring Baker; Task Force and Committee Files; and a script of a talk by Baker. Reprints are in publication date order, oldest to most recent. Baker has assigned a numbering system to the reprints. This set includes A-246 to A-275 (published 2010-2013). There are also several manuscripts. Other writings by Baker include, "The 'Ten Strategies' and common injury problems," "Fifty Favorites," and a published research

study, "Nationwide Review of Graduated Driver Licensing" for AAA Foundation for Traffic Safety.

There are several bound reports pertaining to the following topics: gun laws; educating professionals in injury control; the costs of accidents; traffic safety; motor vehicle accidents; alcohol and motor vehicle accidents; the motor vehicle accident literature; human factors in transportation safety; substance abuse data collection and reporting; and injury facts (charts, statistics, and related information). Materials also include the Congressional Record, 1979, in which Baker's work is mentioned and an issue of the Johns Hopkins Public Health magazine with an article about Baker. There are materials pertaining to a task force (Governor's Commission on Black and Minority Health, Task Force on Homicide, Suicide, and Unintentional Injuries, 1986), a committee (on Injury Scaling – Abbreviated Injury Scale, 1985), and an advisory group (U. S. Army Injury Prevention Advisory Group Meeting, 2001) in which Baker participated. There is a script of a talk by Baker at Cornell University's 50th Reunion.

**Creator:** Baker, Susan P.

**Extent:** 1 box

**Scope and Content:** Materials in this box include Baker's teaching and research files. Teaching files pertain to two courses, one on disability and the other, Issues in Injury Control. The research files pertain to three studies: the Aspen/Pitkin Airport study, a study of crashes of instructional flights, and a study of injuries to women in the military.

**Folder 071/001: Disability Course Files - 1956; 1965; circa 1971-1979.**

**Extent:** 1 binder

**Scope and Content:** Disability Course files comprise one large binder labeled: "Predicting the Societal Costs of Disability Due to Injury – A Feasibility Report and Recommendations for Injury Control Research." Materials include a manuscript, photocopies of articles (bulk), illustrations, & reports. Topics include the costs of injury and rehabilitation & techniques for assessing and measuring injury and disabilities. Dates: 1956; 1965; circa 1971-1979.

**Folder 071/002: Issues in Injury Control Course Files - 1978-1984; 1975**

**Extent:** 1 binder

**Scope and Content:** Issues in Injury Control Course files comprise one medium binder labeled: "Readings for Issues in Injury Control, 30 A 25, Fall 1984." This course was co-taught by Stephen P. Teret and Susan Baker during fall term, 1984. Documents include a letter to students; courses syllabus, 1984; and copies of course readings. Dates: 1975; 1978-1984.

**Folder 071/003 - 071/005: Aspen/Pitkin Airport Consulting Files - 1977-1978; 1988-1994; 1971**

**Extent:** 2 binders; 1 bound volume

**Scope and Content:** Aspen/Pitkin Airport Consulting Files include one medium binder labeled "Aspen Airport," one large binder labeled: "Minutes [of] The Pitkin County Board of County Commissioners Special Meeting Re: Ordinance Setting Hours of Operation at the Aspen-Pitkin County Airport, August 7, 1990," and one bound volume labeled "Night VFR Safety Study, November 1991." Documents pertain to a study by Baker and Lamb of safety issues involved in expanding nighttime flight operations at the Aspen/Pitkin County Airport. There is a note by Baker: "In 1994, Margaret Lamb and I were asked by Dwight Shellman, Attorney, to consult regarding the FAA's proposed opening of Pitkin Airport in Aspen to general aviation flights at night. We were paid by the musician Don Henley, who lived in Aspen and considered the new rule to be very dangerous." Materials include a bound volume, "Night VFR Safety Study Report;" the minutes of the Pitkin County Board of Commissioners special meeting regarding ordinance setting hours of operation at the Aspen-Pitkin County Airport; an FAA Meeting summary, 1990; and a National Transportation Safety Board brief of aviation accidents. There are also copies of articles about airport noise; a resolution of the Board of County Commissioners of Pitkin County regarding noise,

safety, and environmental impact of nighttime flight operations; an annotated copy of a chapter of the FAA Code of Federal Regulations; and untitled manuscript drafts. Other documents include correspondence; facts about the airport; notes by Baker; Technical Meeting materials; and copies of illustrations (including maps of the area). There are also documents created by Baker and Lamb, including "characteristics of Aspen Airport" & facts and conclusions regarding IFR equivalency. There is a position paper by the General Accounting Office, GAO; a report by the FAA; congressional hearing statements (not by Baker); copies of news clippings; and lists of "Safety Issues at Airport." Dates: 1971; 1977-1978; 1988-1994.

**Folder 071/006: Crashes of Instructional Flights Study Files - circa 1989-1994.**

**Extent:** 1 binder

**Scope and Content:** Crashes of Instructional Flights study files comprise one medium binder labeled "Instructional Crashes" with documents pertaining to a research study by Baker: "Crashes of Instructional Flights: Analysis of Cases and Remedial Approaches," 1993. Materials include a research proposal; correspondence; data and data coding tables; National Transportation Safety Board accident reports, 1989; a list, "Instructional Study--Categories/Variables for Instructional Crashes, 1989-1991;" notes by Baker; and an FAA booklet publication series on aviation safety. Dates: circa 1989-1994.

**Folder 071/007: Injuries to Women in the Military Study Files - circa 1992-1994.**

**Extent:** 1 binder

**Scope and Content:** The Injuries to Women in the Military study files comprise one medium binder labeled: "Military," containing materials pertaining to a research study on injuries to women in the military conducted by the Johns Hopkins Injury Prevention Center (Gordan Smith & Susan Baker). This research was funded by the Defense Women's Health Research Program, managed by the U. S. Army Medical Research, Development, Acquisition and Logistics Command. Baker utilized military databases. Materials include correspondence; hand written notes by Baker; tables (statistics/data & tables of databases used in the study); graphs; a typed manuscript; outlines; and bibliography (with abstracts). Dates: circa 1992-1994.

**Box 072: Conference Files; Teaching Files (Epidemiology of Injuries, Biomechanical Epidemiology); Crash Survival Investigators School (Attended by Baker); Testimony before Congress; Literature on Transportation Safety and Pioneers in the field (Clark, DeHaven, & Haddon) - 1942-1946; circa 1950-1953; 1960-1968; 1970-1997; 2002; undated.**

**Creator:** Baker, Susan P.

**Extent:** 1 box

**Folder 072/001: Proceedings of the International Symposium on Occupant Restraint, Toronto, Ontario, Canada, June 1-3, 1981 - 1981**

**Extent:** 1 bound volume

**Scope and Content:** This was an important conference that Baker attended. The Proceedings include Baker's annotations.

**Folder 072/002: Epidemiology of Injuries Course - 1942; 1961; 1966; circa 1970-1984; undated.**

**Extent:** 1 large binder

**Scope and Content:** Materials are for a course Baker taught in 1985 at the University of Minnesota as

part of a continuing education summer session. Documents include a course syllabus; Graduate Summer Session in Epidemiology roster; and course readings (copies of articles, including works authored by Baker).

**Folder 072/003 - 072/005: Biomechanical Epidemiology Course** - 1960; 1966; circa 1975-1977; circa 1984-1997; 2002.

**Extent:** 3 folders

**Scope and Content:** Materials for a course on biomechanical epidemiology taught by Baker and Flaura Winston. Documents include correspondence, course readings, course syllabus, course description, printed lecture outlines, and copies of graphs.

**Folder 072/006 - 072/007: Crash Investigators School** - circa 1981

**Extent:** 1 large binder; 1 workbook

**Scope and Content:** Includes materials from a program of study, Crash Survival Investigators School, that Baker attended at Arizona State University in 1981. Documents include course schedule; syllabus; instructor CVs; course outlines; course readings, workbook with Baker's answers, etc.

**Folder 072/008 - 072/012: Writings by and about Carl C. Clark** - 1971-1972; 1992; 1963-1966; 1983-1985; 1989; 1995

**Extent:** 5 folders

**Scope and Content:** Materials include writings by and about Carl C. Clark, one of the early airbag inventors and an important pioneer in the field of transportation safety. Documents include journal and trade journal articles; reprints; technical papers; reports; conference presentation manuscripts and proceedings; statement of principles; correspondence; book chapters; and typed manuscripts.

**Folder 072/013: Selected Bibliography & Papers by Hugh De Haven** - 1942-1946; circa 1950-1953; 1964; 1968; 1970; 1979.

**Extent:** 1 binder

**Folder 072/014: Cover Story: Traffic Safety Chief Likes his Job. Automotive Industries** - 1967

**Extent:** 1 bound volume

**Scope and Content:** Article about William Haddon, page 69.

**Folder 072/015: Hearings Before the Subcommittee on Consumer Protection and Finance of the Committee on Interstate and Foreign Commerce, House of Representatives, Second Session on HR9291, A Bill to Amend the National Traffic and Motor Vehicle Safety Act of 1966 to Authorize Appropriations** - 1976

**Extent:** 1 bound volume

**Scope and Content:** Includes Statement of Baker, pages 166-169.

**Folder 072/016: Hearings before the Subcommittee on Surface Transportation of the Committee on Commerce, Science, and Transportation, United States Senate, First Session on Motor Vehicle Safety and the Marketplace: Auto Safety and Durability; Occupant Safety; and Government-Industry Efforts to Improve Highway Safety** - 1983

**Extent:** 1 bound volume

**Scope and Content:** Includes Testimony by Baker, page 87.

**Folder 072/017: Hearing before the Committee on Commerce, Science, and Transportation, United States Senate, Ninety-Fifth Congress, Second Session on Oversight Hearings on Truck Lengths - 1978**

**Extent:** 1 bound volume

**Scope and Content:** Includes Testimony by Baker, page 109-113.

**Folder 072/018: 1968 Alcohol and Highway Safety Report: A Study Transmitted by the Secretary of the Department of Transportation to the Congress, in Accordance with the Requirements of Section 204 of the Highway Safety Act of 1966, Public Law 89-564 - 1968**

**Extent:** 1 bound volume

**Scope and Content:** Historically significant.

**Folder 072/019: National Traffic and Motor Vehicle Safety Act of 1966 - 1968**

**Extent:** 1 bound volume

**Scope and Content:** Historically significant.

**Folder 072/020: Martin Company -- Technical Proposal for a Universal Couch Restraint System Concept Development (Engineering Report) - 1962**

**Extent:** 1 bound volume

**Scope and Content:** Historically significant.

**Box 073: Subject Files, various topics - 1983-1984; 1967; undated; 1987-2010; 1976-1977**

**Creator:** Baker, Susan P.

**Extent:** 1 box

**Scope and Content:** This box contains subject files on many different injury prevention topics including the following: Age 60 Rule; air medical transport safety; alcohol consumption and injury; Army military personnel injuries; women in the military; aviation safety (pilot error & aviation violations); event data recorders; homicide and suicide in China; infectious disease in China; falls in the elderly; HEMS (helicopter emergency medical services); helicopters; graduated driver's licensing programs; helmets-motorcycle; helmets for kids; motorcycle death rates; motor vehicle safety; poisonings; sports injuries; suicide; and unintentional injury.

Documents include JHU CIRP (Center for Injury Research and Policy) report on CIRP research projects. There are also teaching files and curriculum files for the CIRP and Department of Health Policy Management. There are files on the MVA (Motor Vehicle Administration), including materials pertaining to a project "to evaluate the effectiveness of the medical advisory board reviews in reducing crashes involving elderly drivers in Maryland."

Material types include: abstracts; journal articles; bibliography (and search query results); book chapters; proceedings of annual conferences; letters to the editor; literature reviews; paper drafts; reports (Insurance Institute for Highway Safety) and trade journals. The literature includes manuscripts and articles co-authored by Baker. There are also Baker's hand written notes; materials pertaining to Baker's participation in scientific conferences, workshops, symposia and meetings of professional associations, as well as on advisory

boards. There are correspondence (including printed email); correspondence files; course materials, including syllabi; data, including graphs, tables, printed lists from databases, and coding documents; and accident/injury reports & summaries. Other materials include forms; printouts of slide presentations (by Baker and others); news articles; typed manuscripts; and printouts of web site content.

**Folder 073/001: Air Medical Transport - circa 2005**

**Extent:** 1 folder

**Folder 073/002: Alcohol and Injury - 2003; undated**

**Extent:** 1 folder

**Folder 073/003: Army - 2001-2003; undated**

**Extent:** 1 folder

**Scope and Content:** Materials include slide presentation printouts with talks by Baker, "Injury Mortality in the Military" and "Injury Problems in the Military." Includes data collected at Fort Riley and Army Safety Center online databases.

**Folder 073/004: Army -- Keshia - 2008; 2004; 2006**

**Extent:** 1 folder

**Folder 073/005: Women in the Military - undated**

**Extent:** 1 folder

**Folder 073/006: Aviation -- Violations - undated**

**Extent:** 1 folder

**Scope and Content:** Includes a manuscript co-authored by Baker: "Age, Flight, and Violation Risk in a Cohort of Older Pilots."

**Folder 073/007: Infectious Diseases in China - circa 2005**

**Extent:** 1 folder

**Scope and Content:** Includes a paper draft co-authored by Baker: "Two Decades of Change in Incidence of Infectious Diseases in China (1986-2005)."

**Folder 073/008: China -- Violence - circa 2005**

**Extent:** 1 folder

**Folder 073/009: The Cochrane Library 2002, Issue 2 - 2002**

**Extent:** 1 folder; 2 CDs

**Folder 073/010: Conferences, Symposia, Workshops, and Meetings - 1997; circa 2002-2010**

**Extent:** 1 folder

**Scope and Content:** Includes documents pertaining to Baker's participation in scientific conferences and meetings of professional associations and advisory boards. Files pertain to the Association for the Advancement of Automotive Medicine (AAAM); The Aerospace Medical Association (AsMA); American Public Health Association (APHA); NIOSH; presentations at JHU; and Armed Forces Epidemiological Board meetings, among others.

**Folder 073/011: Courses** - circa 1997-2002

**Extent:** 1 folder

**Folder 073/012: Courses -- Materials for New Courses** - 2004; undated

**Box 074: News Clippings about Baker; Teaching Files; Typed Manuscripts; Research Literature Notes; Teaching & Research Contract Budgets; Award Certificates - 1916; circa 1968-1997; 2006; undated.**

**Creator:** Baker, Susan P.

**Extent:** 1 box

**Scope and Content:** Materials include a set of 4x6 cards with Baker's notes on articles by other authors. There are also certificates and correspondence pertaining to Baker's receipt of awards and honors; a letter about Baker's appointment to Research Associate at JHU School of Public Health, dated 1968; budgets pertaining to Baker's teaching and research contracts; and manuscript drafts of Baker's writings, including articles and book chapters. There are materials from courses taught by Baker--Issues in Injury Control--comprising notes, handouts, lecture outlines, student rosters (class lists & course grades) and related student records. There are also many clippings of news items that highlight Baker and her research findings on injury prevention at Johns Hopkins. Clippings include newspaper articles and articles in bulletins, newsletters, and trade journals including, among others, The Johns Hopkins Health Associates; The Johns Hopkins InBrief, School of Hygiene and Public Health; Johns Hopkins Magazine; Dome; and IIHS Status Report.

**Folder 074/021: Notes on Research Literature - undated**

**Extent:** 1 small box of 4x6 index cards

---

**Box 075: Slides (35mm)**

**Creator:** Baker, Susan P.

**Extent:** 1 box

**Scope and Content:** Box contains 5 binders of 35 mm slides in slide sheets plus loose slide sheets of 35 mm slides. Binder titles include: "Injuries in the U. S.," "Home Safe Home Program Meeting," and "EPIC, Educating Professionals in Injury Control." These materials are awaiting inventory.

---

**Box 076: Slides (35mm), VHS Video Cassettes, and Sound Recording (Audio Cassette)**

**Creator:** Baker, Susan P.

**Extent:** 1 box

**Scope and Content:** Box contains 18 video cassettes (VHS), mostly lectures, most are dated 2004-2005. There are numerous small boxes of 35 mm slides. Boxes are titled by topic (e.g., bike lecture, playground...). There is also 1 audio cassette titled "Raskin Lecture". These

materials are awaiting inventory.

---

### **Box 077: Slides (35mm) & Photographic Prints**

**Creator:** Baker, Susan P.

**Extent:** 1 box

**Scope and Content:** The bulk of materials are 35 mm slides in boxes and small envelopes; several slides are also loose in the box. There are also a small number of negatives and some photographic prints. These materials are awaiting inventory.
